# Garlicoin News from the Farm

Hello my fellow Garl'icians! We've farmed up a **PACKED** Newsletter to you this week to bring light to a lot of the new things that have happened over the past two months within our majestic community. Whether you're new or have been an active farmer to this homestead, we hope these events will bring forth excitement to your growing fields!

## ~ Important Announcement ~

The Garlicoin Halving is scheduled (ETA) to happen on:

August 25, 2021 8:47:52 ([UTC+2](#), [grlc.eu](#))

Visit your local Garlicoin Discord for Community Watch Party info!

We are pleased to announce that we are the proud and honorable sponsors of Ethos Esports!

They are a multi-national player team that competes against others teams head to head with their main game of choice being Rocket League. They stream their competitions on their Twitch. Be sure to give them a follow and join their social and discord!

They even have Merch available with our blessed Garlicoin on them!

## Garlic Game + Garlicoin Partnership

We partnered with game developer called SylphArcade to have our glorious coin in their very own, precession platformer game called Garlic, which went live on Steam June 15, 2021.

Be sure to check out the developer as they are working on their next platformer already and they also have an OST available for purchase on Bandcamp.

## Andriod Garlicwallet Launched!

We're happy to announce that if you're a robot lover and have a smartphone, you're in luck! Our glorious community member on our Discord, Xlrion, has published a Garlicoin Wallet on the Playstore! - Click the image below to check it out!

For those that love thy Apples, an iOS version of the is currently being worked on. Due to the differences of Android and Apple, it's just taking a little bit longer to get that up and ready for the public.

As always, if you have any issues, hit up the support channel on the discord.

## New Discord Emotes

If you haven't been in the discord recently, we got more emotes to play with and share amongst other discords! Look at them! Aren't they freaking beautiful?!

## Summer Soak Week: July 14 – July 18<sup>th</sup> of 2021

- [https://www.reddit.com/r/garlicoin/comments/okiyui/its soak week in grlccord join us tonight for an/](https://www.reddit.com/r/garlicoin/comments/okiyui/its_soak_week_in_grlccord_join_us_tonight_for_an/)
- [https://www.reddit.com/r/garlicoin/comments/omjrlv/has soak week been a success over 7000 garlicoin/](https://www.reddit.com/r/garlicoin/comments/omjrlv/has_soak_week_been_a_success_over_7000_garlicoin/)

If you weren't there, you should have been. It was a community airdrop of Garlicoin like no other. Everyone was sharing coin like it was the next hot thing on Youtube! You remember those Ice Bucket challenges? Yes, think that, but more crazier!

Before  
soak week

After  
soak week

Hosted by Jorge of the discord community. What first started off as a single person sharing the wealth of a good harvest turned into a straight out fiesta. Everyone, even new users to the discord, were dropping their newly received Garlicoins and sharing it amongst other new users.

It was a glorious and happy 5 Days filled with spirit and cheer in the discord. One might have even considered it a good distraction from the worldly things. Legend has it that another Soak Week might be on the horizon, when that is, only the Legend itself knows.

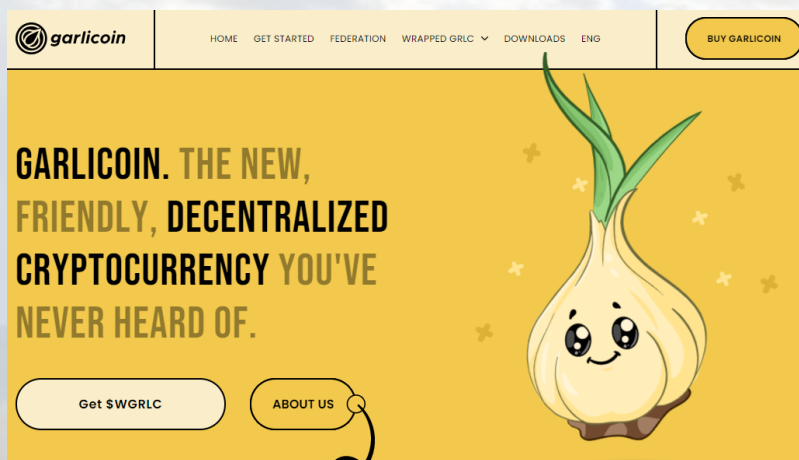

## Garlicoin Website Redesigned!

The Garlicoin website had a recent facelift from the ground up and more dynamic look given to it. Compared to the old design, this new one makes us more serious and on par with more “known” coins on the market. This is just another step on becoming an even more recognizable and trust worthy cryptocurrency!

## The Garlicoin Federation & ERC-20 Wrapped Garlic

The Garlicoin Federation was put in place in order to move the coin and the community forward. By having the Federation in place, we’re able to make strides in improving our stance with the crypto community.

The first thing the Federation has done is made it so that Garlicoin is now available as an ERC-20 wrapped token on the Ethereum network. This will allow us the opportunity to be on more decentralized exchanges. Are you interested in joining the Federation? Click the Image above!

# Community Ideas

## Garlicoin is POGS

After the announcement of our new discord emotes, it was suggested that we should invest in actual Pogs and have the emotes printed on them. We'd love to get more feed back on this and if people would be interested in this to happening and obtaining them!

Strawpoll: <https://www.strawpoll.me/45591955>

Business that could potentially make our Pogs: <https://custompogs.com/>

Let us know in the discord as well, but please take part in the strawpool as well. ♥

## The Garlicoin Halving Watch Party

There are plans to have either a watch party on the discord, on twitch, or even both! If you'd like to participate in the Garlicoin Watch Party, please let us know in the discord and fill in a RSVP poll. It'll be a bring your own garlic type of party. ( RSVP: <https://www.strawpoll.me/45592017> )

Party is planned to happen on August 25th, at least a hour before halving, but please refer to Pg3 Announcement Linkage for exact timing as the Halving itself might change.

## A push for more services to accept Garlicoin

We'd like to send an open offer to those with a service, talent / skill, or business to accept Garlicoin for services provided. If more are willing to accept Garlicoin, then our currency has even more value then being on the exchanges.

If you anything to trade or provide, please share on [r/GarlicMarket](#) or share your skill / business info on this form: [Submissions Form for Next Newsletter](#)
